PREPARATION GUIDE · 3 MINUTE READ

Before buying a flat in Chennai, prepare for the conversation.

A useful first conversation starts with your situation, the documents you already have and the questions you want answered. You do not need to know the legal terminology.

Bring context, not just paperwork.

Explain what you are considering, what has already happened and whether a date has been agreed. The firm can then clarify the appropriate service and what else it needs.

- 01 Your purchase stage and important dates
- 02 Available property papers requested by the firm
- 03 Questions and concerns to discuss
